

SHIP: USS LASALLE (AGF-3) ITEM NO: 881-01-002  
COAR: 16-537 PCN: EXSY-Z133  
RWI FILE NO: 881-01 CMP: NONE  
REVISED: 14 AUG 2000 SURVEYOR: HENDRICKS

1. SCOPE:

1.1 Title: Undefined Growth Labor and Material (GLM) Requirements;  
accomplish

1.2 Location of Work:

1.2.1 Not Applicable

1.3 Identification:

1.3.1 Not Applicable

2. REFERENCES:

a. None

3. REQUIREMENTS:

3.1 Provide the following Undefined Growth Labor and Material (GLM), in manhours/dollars, to accomplish within scope growth to this Job Order. The GLM manhours and material shall be provided to accomplish production work at various locations, in shops and aboard ships, and may be utilized for both prime and subcontractors. The GLM trades required will be such as, but not limited to: Marine/Inside Machinist, Boilermaker, Pipefitter, Sheetmetal, Shipfitter, Fire Watch, Electrician, Welder, Burner, Painter, Blaster, and Laborer. The GLM manhours and material requirements are in addition to any manhours or material reserved by other individual work specifications. GLM requirements shall not be used to accomplish work outside the scope of this Job Order.

3.1.1 Provide 125 direct production manhours for accomplishing GLM requirements of this Job Order.

3.1.2 Provide 125 direct production Combat Systems/Electronic manhours for accomplishing GLM requirements of this Job Order.

3.1.3 Provide 12,500 unburdened material dollars for accomplishing GLM requirements of this Job Order. Reserved material dollars consist of the direct cost of material including freight and/or duties, if applicable.

3.1.4 Provide 12,500 unburdened material dollars for accomplishing

SHIP: USS LASALLE (AGF-3)

Combat Systems/Electronic GLM requirements of this Job Order. Reserved material dollars consist of the direct cost of material including freight and/or duties, if applicable.

3.2 For the purpose of pricing this solicitation, the GLM direct production manhours reserved in 3.1.1 and 3.1.2 shall be priced on a firm fixed priced burdened basis. The burdens to be added to the price for direct hours shall include the following:

Supervision	Quality Assurance	Profit
G&A	Overhead	Fringes
FCOM	Other Direct Costs	Purchasing Staff
Administration	Planning	Contract Administration
Housekeeping	Estimating	Negotiations
Cleaning	Engineering Required to Price Changes	

Any other cost associated with direct production manhours that are customary in pricing changes or included in forward pricing rates.

Attachment A shall be completed and submitted, post award, directly to the designated project manager (along with the price breakdown by specification item as required by L-2-38 of the solicitation). It shall identify the total price bid for the reserved manhours and break out the total price for direct hours by clearly identifying the direct manhour rate and specific burdens/add-ons. The total price for 3.1.1 and 3.1.2 included in the price for this item shall equal the total price for 3.1.1 and 3.1.2 in Attachment A with burdens/add-ons included.

3.2.1 When GLM manhours are required to accomplish work during the production period, the contractor shall be paid the total rate per direct hour which includes all burdens/add-ons as set forth in Attachment A.

3.2.2 Only direct production manhours negotiated for accomplishing GLM tasks will count toward using up the manhours reserved by 3.1.1 and 3.1.2. The burdens/add-ons addressed in 3.2 will not count toward using the manhours reserved. However, if accomplishment of a GLM task causes delay, disruption or the need for premium time, the total number of hours of delay, disruption or premium portion of time agreed to by the parties will count toward using up reserved manhours.

3.2.3 The GLM manhours reservation shall include both prime and subcontractor manhour efforts; however, the following specific tasks will not be included as part of the GLM requirements:

3.2.3.1 Government directed sources, OEM technical representatives, refrigeration subcontractors, Leslie control valves, diesel engine repair, electric motor repair, engineering.

3.3 For the purpose of pricing this solicitation, the unburdened GLM material dollars reserved in 3.1.3 and 3.1.4 shall be priced based on the direct

SHIP: USS LASALLE (AGF-3)

cost of material reserved plus customary burdens/add-ons, such as G&A, material handling, warehousing and profit. Attachment A shall be completed and submitted, post award, directly to the designated project manager (along with the price breakdown by specification item as required by L-2-38 of the solicitation), identifying the total marked up price for projected material and clearly identify the customary burdens/add-ons applied to the material identified in 3.1.3 and 3.1.4.

3.3.1 When GLM materials are required during the production period, the contractor shall be paid the negotiated price of material with burdens/add-ons identified in Attachment A. In negotiating specific GLM tasks, the cost of materials will be based on vendor invoices for materials on hand or on the basis of quotes for material to be purchased.

3.3.2 Only the negotiated direct cost of material required (as defined above) and any applicable freight and/or duties will count toward using up reserved material dollars in 3.1.3 and 3.1.4.

3.4 The total burdened agreed manhours for any one GLM action shall not exceed 400 manhours unless mutually agreed to by both parties.

3.5 The Government has a goal of invoking the GLM manhours and material in 3.1.1 through 3.1.4 during the first 50% of the contract performance period. Any manhours remaining after that period will be invoked so as to preclude the impact of delivery schedule.

3.6 The GLM requirements are not intended for the removal of controlled substances (i.e., asbestos) or hazardous waste (as identified or pursuant to work item titled "Hazardous Waste Produced on Naval Vessels; control").

3.7 The Government will write a Request for Contract Change (RCC) for each GLM task required in order to provide financial status in the FASS system. Upon agreement on each GLM task the direct production manhours and unburdened material (actual direct materials and freight and/or duties) agreed to for the RCC will be entered on the standard proposal/settlement sheet. No contract modification will be required. GLM reservations are not to be considered Time and Material or a Level of Effort.

3.8 The Government will be entitled to credits for manhours and material dollars reserved by 3.1.1 through 3.1.4, but not used. The credit will be taken at the marked up rates reflected in Attachment A for manhours and material dollars.

3.9 After negotiated settlement of each GLM/RCC, the total direct production manhours and unburdened material dollars agreed shall be recorded and reported on a weekly basis to the SUPERVISOR.

3.9.1 The report, consisting of four legible copies, shall contain the following: work item number, RCC number, total original manhours and material

SHIP: USS LASALLE (AGF-3)

dollars allocated in each paragraph, the manhour and material dollars negotiated for each RCC, and the remaining balances of manhour and material dollars.

3.10 Submit four legible copies of a final report no later than five days after completion of the availability to the SUPERVISOR.

4. NOTES:

4.1 None.

5. GOVERNMENT FURNISHED MATERIAL (GFM):

5.1 None.
